The Tahoe Truckee Wolverine basketball teams travel to Colfax Friday night following a win and a lose chalked up during the past weekend.

On Friday, the local boys dropped a close game to Colusa at Sierra College 44 to 42, losing the lead in the final few seconds of the game after maintaining the advantage. At the half the score stood 25 to 15 favoring the Wolverines. Mark Moore led in scoring with 17 points with Steve Felte second with ten.

The junior varsity five downed the Colusa JVs 39 to 26 in the preliminary.

Assistance in planning has been offered by the state and Sacramento organizations and Morey plans to discuss the project with them.

Snow Is Blamed In Three Car Accident

There is always an interval between the time that tire chains are not required and when they are demanded on the highways and as a result a number of cars are between the control signs when enforcement is started.

This condition existed Saturday afternoon and resulted in a serious accident near the Donner Lake interchange on Interstate 80.

Only one of the three cars involved in the collision was equipped with chains, the others being inside the control area when the signs were installed. In the resulting accident, Lawrence W. Logan, 21, Lafayette, suffered major injuries after his car skidded out of control and was struck by other vehicles driven by Frank Kilzer, 32, and Peter E. Remneff, 23, both of San Francisco as all three were traveling east.

During the period, the westbound lane became so badly congested that the Truckee Ambulance, operated by Jack deRyk, was forced to use the east-bound lane to get to the scene of the accident, braving the oncoming heavy traffic.

Logan was taken to Tahoe Forest Hospital with a broken leg and witnesses said he was fortunate, because of the severity of the crash, that he did not suffer far greater injury.

Officers Probe Death Of Shooting Victim

Placer and Nevada County authorities today are investigating the death of Lynda Kay Randall, 23, Kingvale, who died early this morning from a .38 calibre gun shot wound in her head which officers were advised was self inflicted.

Officers said the woman, who lived with her husband, Wilbur, a service station operator, and her mother and nine month old child, threatened suicide, according to the husband. He called the Placer officers and when they arrived they found the victim in a bedroom and she was rushed to the hospital by Truckee Ambulance where she was pronounced dead on arrival.

The body was taken to Truckee Colonial Mortuary.

Local Woman Gets Credit For Saving Gas Stricken Trio

Fast thinking and prompt action by Mrs. Ben R. King, wife of a Truckee physician, is credited with saving the lives of three Fort Lupton residents when they were overcome by carbon monoxide gas in their vehicle near Castle Peak Saturday evening.

Mrs. King, returning with a group of young boys from Sugar Bowl, discovered the car driven into a snowbank with the lights burning and the motor running. Investigation showed the three occupants unconscious in the car.

Mrs. King pulled them from the vehicle and applied artificial respiration and passers by summoned the Truckee Ambulance, operated by Jack deRyk.

Taken to the Tahoe Forest Hospital for treatment were John Aragon, 12; his father Albert, 33, and his uncle, Robert, 37.

Gas had apparently leaked into the car from a faulty exhaust system. The boy remained in the hospital overnight and the two adults were released after treatment.

The boys in the car with Mrs. King, including her son, Bimbo, Jack Jones, Joe Corro and Dennis Beckett, assisted her in the rescue mission.

Legislators To Hear Tahoe Sewer Study

TAHOE CITY—The public utility districts of North Lake Tahoe and Tahoe City are to present their sewage plan and financial dilemma to members of the state legislature on Thursday morning, February 10, in Sacramento.

The two districts have agreed to work together on the implementation of the first portion of the North End 40-year regional sewage system, but find that their legal bonding capacities fall short of the required amount by $2 to $3 million.

Both districts are up to present capacity and are to be supported by the Placer County Supervisors in their request for state aid.

Supervisor Bill Briner stated, "Now is the time for action. We have the engineering worked out and a unified desire to get the job done. All we need now is state help to pick up the premium portion of the cost of sewage treatment, exportation and disposal at Lake Tahoe. This program must move forward in 1966."

Lawsuits totaling more than $1 million were filed as a result of the accident in which 10 of the 38 passengers east bound to Reno were killed. The bus overturned on Interstate 80 near the Flycasters Club.

The company and driver, John Gaftunik admitted negligence, leaving the amount of the damages as the sole issue in the nine-day trial.

Three Are Guilty In Theft From Z Markets Register

Two of the three men charged with taking $460 in cash from Z Markets in Truckee on December 7 were found guilty last week by a jury and the third man previously pleaded guilty.

The unanimous verdict of the jury was reached 90 minutes after the case was given them.

Counsel for the two, William Hager, requested probation for his clients and Judge Vernon Stoll set February 14 for consideration of probation and sentencing.

The two who stood trial were Calvin George Graham, Jr., and James Edward Casey. Charles Pike, the third man, changed his plea to guilty and will be sentenced tomorrow.

Witnesses at the two-day trial included David Rose, Sierra County sheriff's deputies, Sam Doyle and Sergeant William Mullis, Oliver Crose and Howard Glen Lewis, Jr.

The latter was on duty in the store when the three men were charged with snatching the currency from the cash register and fleeing. Lewis gave a description of the trio and the license number of their car to officers and an hour later the three were in custody at Loyalton.

District Attorney Harold Berliner prosecuted the case in the superior court.

GOVERNOR REVEALS INTENTION TO RUN AT JUNE PRIMARIES

SACRAMENTO — (CNS) — Governor Edmund G. Brown today made official what has been an open secret for nearly a year—he will seek election to a third term as governor of California.

Brown made the statement at an early, 8 a. m. press conference in the capitol and then boarded a plane for stops for similar announcements in Chico, San Francisco, Los Angeles, San Diego, Santa Barbara and Fresno.

The governor said he had delayed as long as possible in making the announcement—not out of coyness but because he felt campaigns were too long. He said the announcement was made now only because it would not be fair to others who might have thoughts of trying for the job to delay.

Redistricting Study Ordered In County

The board of supervisors of Nevada County issued a minute order to County Counsel Leo Todd directing him to study and make a recommendation on whether or not the county should be redistricted.

The action followed a report from County Clerk Ted Kohler showing the breakdown of percentages of voter registration in the five districts. The report showed 21.91 per cent in District 1; 30.14 per cent in District 2; 18.28 per cent in District 3; 20.29 per cent in District 4 and 9.29 per cent in District 5.

Kohler said the percentages showed that there was sufficient closeness to recommend that the present districts be maintained.

The county now has a total of 11,900 registered voters with 3,783 in the two cities of the county. Democrats hold a slight lead in registration with Nevada City having the distinction of being the only community with more republicans than democrats. There are 622 democrats and 626 republicans and 23 others.

The fifth district (Truckee-Donner) has 626 democrats, 445 republicans and 43 others.

Sierra and archrival University of Nevada will compete, along with Chico, Stanford, College of Siskiyous and possibly two or three other teams.

The three-day meet starting Friday, February 4, is considered a warmup for Nevada's big annual winter carnival meet at the Ski Bowl and Sky Tavern.

Sierra extended its win streak to eight meets last week in the invitation at Bend, Oregon. Freshman Greg Moore of Tahoe Truckee, won the slalom which counted largely for the Sierra win.

CRYSTAL BAY—With ten of the 15 eligible voters in Washoe County Sewer Improvement District No. 1 casting affirmative votes in a special election Friday, the district may now contract with the North Tahoe Public Utility District for removal and treatment of sewage from the Nevada side of the state line.

Don Carano, counsel for the district, said that no change is anticipated in the sewage operation although Deputy County Clerk Alex Coon noted that the election means the district now has authority to annex land, among other powers.

Just being in the right isn't enough. Nearly half the drivers in fatal collisions are in the right. So keep an eye open for trouble at all times, from all sides. Drive defensively—as if your life depended on it. (It does.)

DONNER DOINGS . . .

By Marcella Corro

We at Donner Lake may consider it too early to think about fishing, but they are limiting out at Lake Tahoe. Many fair sized mackinaws have been taken with limits of rainbow trout. In a few months we'll have to give these Tahoe beauties some competition. For the fisherman who cares to venture further, Lake Topaz has been reported from fair to good.

Mario J. Genevese of Monterey and Judy Metton of Menlo Park chose the beautiful snowcapped mountains of Squaw Valley as a setting for their wedding ceremony Sunday at the Queen of the Snow Church. The bride is the daughter of Mr. and Mrs. James W. Metton of Menlo Park. She wore a street length gorwn of white lace and carried a prayer book and an orchid bouquet. The bride groom is the son of Mr. and Mrs. John Genevese of Monterey.

Richard and Elaine Ciandro served as best man and matron of honor. Mrs. Ciandro wore a turquoise sheath for her gown and carried an orchid corsage. A reception was held at Bacchi's at Lake Forest.

Georgiana King proved Saturday's heroine of the day. When she was returning from Sugar Bowl with her son, Bimbo, Jack Jones, Joe Corro and Dennis Beckett, they noticed a car had veered off the road with its headlights still glowing and the motor running. When Mrs. King and the boys investigated they found the three occupants of the vehicle unconscious from exhaust fumes. They carried the two men and the boy out into the snow where they regained consciousness. When the highway patrol arrived they called for an ambulance to take the three to the Tahoe Forest Hospital. Let's make it a point to stop and help when we see someone in trouble.

It looks as though the ice on Donner Lake is here to stay. A flock of nine geese circled the lake and then decided this wasn't the place to land and flew on. You can't fool the geese but when Mr. Hillegass decided to taxi across in his boat, he remarked how smooth the lake was, only to discover it was solid ice.

Joe Sante Quintet Headliner at Lodge

CRYSTAL BAY—Climaxing three weeks of crowd-pleasing music and joviality, the spectacular Joe Sante Quintet takes the spotlight at the Topaz Room of Nevada Lodge, North Lake Tahoe's largest year-round resort hotel casino.

The big-sound, upbeat group spreads a remarkable array of musical instruments and virtuosity before Topaz Room audiences—plus the huskyvoiced appeal of lovely Irene Keller to add dazzling glamor. Joe Sante is acknowledged as one of the nation's most accomplished saxophone players—and he displays his rare accomplishment of playing two saxes at the same time. This not being enough, he freely switches to alto, tenor, bass and soprano sax, clarinet and trumpet.

The music jumps and the zany humor bounces with the quintet on stage. In addition to Sante and Irene Keller, the quintet is rounded out by Reed Gilchrist, Richard De Genero and Phil Alexander who play a total of eight instruments.

Opening next week at Nevada Lodge is the Esquires Trio.

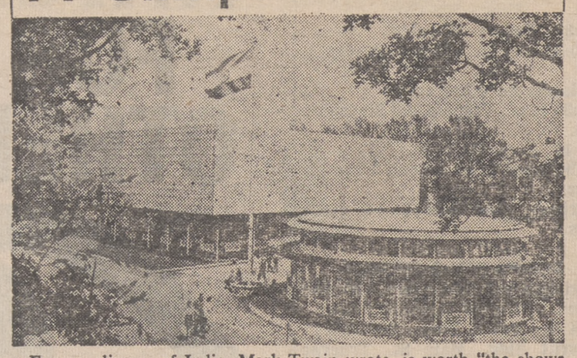
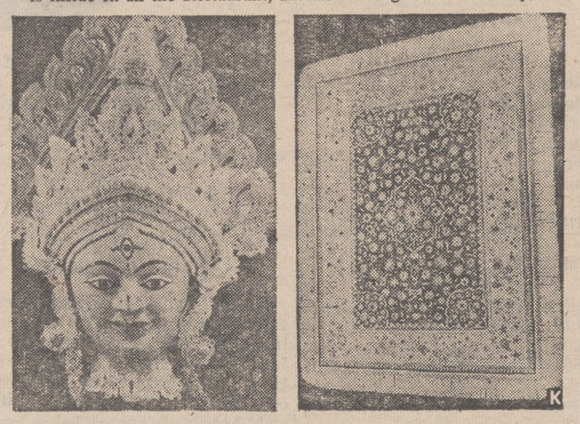
A Glimpse of India



Even a glimpse of India, Mark Twain wrote, is worth "the shows of all the rest of the globe combined." And so it is at the New York World's Fair, where millions of visitors to the India Pavilion have described their glimpse of India as "enchanting," "exotic" and "irresistible." The Pavilion, pictured above with the circular India Restaurant, is a seemingly floating structure, half-hidden by a screen of falling water. A whole panorama of India—past, present and future—is inside it. In the Restaurant, Indian dancing is offered daily.



Skilled artisans, flown from India especially for the Fair, demonstrate at first hand the exquisite craftsmanship which has fashioned through centuries India's legendary wares. Stone and bronze sculptures, wood carvings, murals and paintings, all bear eloquent testimony to an undying art. Examples of superb craftsmanship pictured here are (left) a decorative head of Durga as worn at the annual Bengal festival, and (right) a jewelled carpet studded with 18,000 precious stones woven in floral patterns with gold and silver threads.

SAWS ARE USED BY STATE TO IMPROVE SAFETY ON HIGHWAY

SACRAMENTO—A diamond tipped gang saw is one of the latest devices being used by the California Division of Highways to make certain sections of highway safer.

The saw is used to create shallow grooves in pavement at locations where there is a record of accidents which may be caused by hydroplaning or the water-skiing effect produced when a car's tires meet with wet pavement.

By placing longitudinal grooves threesixteenths of an inch deep into the pavement and several grooves in each inch, division of highway engineers have demonstrated that hydroplaning can be virtually eliminated at specific locations.

The serrating process seems to be most useful on a few road sections where fast-moving vehicles spin out of control after the hydroplaning effect takes over. The shallow depth of the cuts does not affect the riding qualities of the pavement. In fact, placing the grooves parallel to the direction of the automobile actually helps to keep a car going straight down the road as it should.

Results of a first study on this type of minor improvement have shown that, at a location on the existing Golden State Freeway in Los Angeles County, there were nine accidents attributable to rain or wet pavement in the two years prior to the improvement and none from the same cause in the two year period afterwards.

Serrations have also been placed at several locations on Interstate 80 over Donner Summit where hydroplaning was strongly suspected of causing several accidents. Since this grooving, which is now one year old, there have been no accidents at these locations.

The division of highways is continuing the installation of these grooved segments of highway, and is conducting research to see if there are other road locations throughout the state which could benefit from the serration.s

SENATOR TEALE WILL BE CANDIATE FROM THIS SENATE AREA

SACRAMENTO — (CNS) — Senator Stephen P. Teale, West Point, the legislature's flying doctor, has announced he will be a candidate for election to the new senate district that runs from the Oregon border down along the Sierra Nevada and foothills and swings into Stanislaus County on the south.

Teale, who has been in the state senate since 1953 and was chairman of the reapportionment committee and author of the bill, never made any secret of his dislike for the redistricting act.

Teale is one of the five senators who had served territory in the new district, plus one whose district included two counties in the new district. The field was narrowed somewhat last summer when Senator Stanley Arnold, Susanville, was appointed to the superior court. It narrowed more recently when Senator Paul J. Lunardi, Roseville, who had been considered a pre-campaign favorite, announced he would retire.

This leaves Teale, Senator John C. Begovich, Jackson, who has said he will be a candidate, and Senator Hugh P. Donnelly, Turlock, dean of the legislature in service. All the incumbents are Democrats.

Teale conducts a medical practice in Calaveras County, commuting to Sacramento in his own plane. The senator said he expected to do considerable flying during the campaign and also in serving the far-flung district, if elected.

Leake Announces For Re-Election

WOODLAND — Paul Leake of Woodland, who has a riveted plank in his platform that "taxes and politices don't mix," has announced his candidacy for re-election on a nonpartisan basis as a member of the state board of equalization.

Leake, a lifelong democrat, who has represented 25 northern California counties since 1952, said his policy on political contributions remains unchanged: "We'll seek none, nor will we accept any. We're not bragging—it's the way it's going to be."

The Woodland newspaper editor and publisher accepted an appointment to the board from Governor Earl Warren, now the chief justice of the United States, on the sole condition that he'd be given "free reign to try to clean up the boards' liquor scandal."

With the aid of the then Assemblyman Caspar Weinberger and others in the legislature, and also with the assistance of the then Attorney General Edmund G. Brown, Leake's efforts were climaxed with success. Two members of the legislature and eight liquor agents were among those sent to the penitentiary for their part in liquor license graft.

He won primary endorsement on both the democratic and republican ballots in 1962, the latter as a surprise write-in candidate in a dramatic 11th hour campaign.

Leake appealed to both parties' voters to "keep taxes and politics separate. Like certain chemicals, if kept apart, they serve a valuable purpose. Together, taxes and politics are combustible."

Even for vote getting purposes, no definite promise of relief in taxes was held out by the third district member of the board. "But I believe that an overhaul of the tax structure is due. The machine is failling under the present load," he said.

He said he hoped the legislature would strengthen tax laws by discarding the legal shroud that covers some of the assessor's work.

"Secrecy should play no part in our board's operation as the state's property tax administrative agency, too," he asserted.

The board already has offered a number of suggestions to the legislature to promote uniformity in property assessments, and shortly will offer others in the business tax field.

The board either directly administers or advises in the annual collection of $5 billion in state and local business and property taxes. It is the largest tax revenue agency in California and second only to the United States Internal Revenue Department.

Leake's third district comprises Butte, Colusa, Del Norte, El Dorado, Glenn, Humboldt, Lake, Lassen, Marin, Mendocino, Modoc, Napa, Nevada, Placer, Plumas, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Yolo and Yuba.

Increasing Number Of Phones In Area

Nevada County's rate of telephone growth over the last 10 years is outstripping the rate at which telephones are being added around the world, Pacific Telephone Manager J. C. Domergue announced today.

The number of phones served by Pacific Telephone in the county during the past decade has increased an average of some 10 per cent per year, while telephones added around the world averaged a yearlong six per cent gain.

According to the latest edition of "The World's Telephones," just released by the Bell System, the total number of telephones in the world has increased to more than 182,500,000, an increase of 11,500,000—or six per cent—over the previous year.

The gain was history's largest one-year addition of telephones around the world, and capped a decade of growth in which the world's telephones almost doubled in number.

Figures cited in the annual Bell System study are dated January 1, 1965, because it takes almost a year to collect data from world-wide sources.

North America, with 95,500,000 on January 1, 1965, has as many telephones as all the world had on the same date in 1955. Most of the North American total is in the United States, which counted 88,785,000 telephones at the beginJapan added 1,568,000 telephones during 1964 to hold second place in the tabulation with a total of 12,251,000.

Star-spangled way to help your baby's future

Suppose somebody had started off your future with a U. S. Savings Bond. And kept adding more Bonds as your birthdays added up.

You would have had a nice send-off when you set out to conquer the world!

It's still a great idea. And if you have any new boys or girls in the family you can put it into action now.

The cost is small. Only $37.50 for each $50 Bond—or less than 11¢ a day to buy one every birthday.

U. S. Savings Bonds will save more than money for your baby's future, too. They'll help Uncle Sam safeguard his future freedom.

Ask about buying Bonds where you work or bank. You don't have to wait for a birthday, either.

Quick facts about Series E Savings Bonds

- You get back $4 for every $3 at maturity (7¾ years)
- You pay no state or local income tax and can defer the federal tax until the Bonds are cashed

Hal Drummond To Wed Eastern Girl

Announcement of the forthcoming marriage of Harold W. Drummond, Jr., of Truckee to Miss Jacqueline Kay Zangger of North Loup, Nebraska, was made this week.

The date for the ceremony has been set for April 7 in the North Loup Methodist Church.

Their engagement was announced by the future bride's parents, Mr. and Mrs. Charles B. Langger.

Drummond, a graduate of the Tahoe Truckee High School, where his father is the principal, has been attending Humboldt State College, majoring in forestry. He was an honor student at the high school here.

Driver ant columns of Africa are two inches wide and may be two to three miles in length.

Vaheys At Wedding Of Granddaughter

Mr. and Mrs. Phil Vahey Sunday attended the wedding of their granddaughter, Miss Sharon Rich, daughter of Mr. and Mrs. Arthur L. Rich of Sacramento to Dennis Rafferty, son of Dr. and Mrs. Max Rafferty, also of Sacramento.

The double ring rites were conducted at 4 p. m. in the Trinity Episcopal Church in Sacramento.

The bride was given in marriage by her father and the maid of honor was her sister, Miss Linda Rich and the bridesmaids were Misses Pamela Rich and Miss Penny Rich, cousins of the bride.

The best man was Gary Smoot and the ushers Robert Rich and John Gregory.

Following a honeymoon trip to Carmel, the young couple will make their home in Sacramento where both are attending college.

Health Department Offers Service Here

Another in a series of articles outlining some of the services available at the County Government Building.

Briefly described are some of functions of the public health nurse, Lynne Uriu, who serves the area out of the health department office in the Government Center Building.

Public health nursing services are provided to families, groups and individuals, by the nurse, under the direction of Dr. Ray H. Wiser, deputy health officer, for the eastern side of Nevada County.

The nurse also functions in the same capacity, as well as that of school nurse, on the eastern side of Sierra County. Her time, therefore, is divided between the two counties.

One of the main functions is the control of communicable disease through various activities such as case finding, investigation and follow-up of reportable diseases like tuberculosis, V. D., infectious hepatitis and others.

Immunization clinics are held monthly on the fourth Friday between 12 noon and 1 p. m. at the Government Center, health department office. Protection, through immunization, against diptheria, whooping cough, tetanus, smallpox and polio, may be received by any one attending the clinic. Any person desiring immunization is welcome to attend. Tuberculin tests are also done on individuals when requested.

Another major activity is in the area of crippled children services. All referrals for crippled children services are accepted and diagnostic studies may be made, however, as the budget for the Nevada County Crippled Children Services is exhausted until July 1, 1966, treatment authorizations cannot be made at the present time, except on emergency basis. Questions regarding this program may be directed to Dr. C. Jackson Rayburn, county health officer, Grass Valley.

Maternal and child health counseling is done on an individual basis when requested by individuals or their physicians. Health education materials (booklets, leaflets, etc.) on various topics are available to those who are interested. The nurse participates in the follow-up of some projects, for example, the vaccination assistance act, and the armed forces medical rejectee program.

Special clinics or classes may be set up, if the community requests this type of health service.

The nurse may be contacted in the office or by phone. If she is out of the office, messages may be left with Winifred Edmunds, the secretary for the health department office.

Donaldsons Tie In League With Vail's

Donaldson's Cafe knocked off the league leading Vail's Drug five last Thursday evening and put themselves in a tie with Vail's for the first place spot.

That same evening Marier's Marauders sailed past the Tourist Liquor Store-Smart's Cafe team and tied up the lower half of the league standings. Rex Donaldson of Donaldson's and Don Douglas of Vail's led their respective teams with 26 points each. Bill Ransom dumped in 23 points for Mariers while Bill Buol scored 8 points for the losers.

In the games played January 25 at the local high school, Donaldson's downed Marier's 73-59, and Vail's romped over Tourist Liquor Store-Smart's Cafe 102-56. In the first game Ron Galiger led the winners with 20 points and Bill Ransom scored 18 for Marier's. Randy Bobby poured in 37 points for Vail's in their triumph over the Tourist Liquor Store-Smart's Cafe team who were led by Lee Velasquez with 26 points.

Cushing Loses First Round Over License

SACRAMENTO — (CNS) — Assemblyman Jerome R. Waldie, D-Antioch, has expressed elation with a decision of the alcoholic beverage control appeals board which gives him the first round in his battle against operation of a liquor license atop a mountain in Squaw Valley state park.

The license had been issued by the ABC department as a duplicate to a license already held by Alex Cushing at Squaw Valley Lodge in the state park. As is normal in issuance of duplicate licenses, no hearing was held.

Waldie intervened as a private citizen and objected to the sale of liquor within the state park. The ABC department asked the appeals board to dismiss Waldie's motion for a rehearing of the case and the board denied the department's request.

"This decision is a major step forward in my continuing efforts to seek the revocation of Cushing's liquor license in Squaw Valley state park," Waldie said. "I am confident that the hearing on the merits of this case that will now follow will clearly reveal that the duplicate license was improperly issued Alex Cushing and its revocation, I am equally confident, will ultimately be accomplished.

The department had contended the appeals board had no jurisdiction as issuance of a duplicate license did not constitute a decision. In addition, the department said no "decision" was made as there was no hearing and no record was produced. The appeals board disagreed, saying that a decision was made and that the application provided the record.

The case parallels somewhat the one involving issuance of a license at the Mt. San Jacinto winter park authority in Riverside County, where a license was issued for the top of the mountain served by a tramway. In that case, the attorney general held the license should be issued.

CALL EXAMINATIONS

AUBURN—An open and promotional examination for laundryman has been called by the Placer County Personnel Department. The final date for filing for this examination is February 15.
